

RUSTBUSTER SP-10 TANK-KLEEN

PRODUCT DESCRIPTION

Rustbuster SP10 Tank-Kleen is an extremely strong caustic detergent, used for degreasing and dirt removal prior to painting or blast or wire brush cleaning of steel.

Rustbuster SP-10 Tank-Kleen contains an anti-rust additive to prevent flash rusting on clean steel. SP-10 Tank-Kleen will remove grease, dirt and carbonised grime.

PRINCIPAL BENEFITS

Rustbuster SP10 will successfully degrease and remove dirt and grime from.

- Steel
- Engines
- Farm equipment and plant
- Concrete floors
- Tiles
- Plastic and GRP (do not use on painted surfaces)

APPLICATION INFORMATION

Product Description	A yellow liquid, Rustbuster SP10 Tank-Kleen is an extremely strong caustic detergent
Directions of Use	<p>SP-10 Tank Kleen can be diluted 1-part SP-10 Tank Kleen with 4 parts fresh water.</p> <p>SP-10 Tank Kleen can be diluted up to 100:1 when used neat in a power wash ratio dispenser. Pour neat SP10 into the detergent tank and set the dial to 100:1</p> <p>When applying by brush allow SP-10 Tank Kleen to foam on scrubbing, this will allow the SP-10 Tank Kleen to emulsify the grease and dirt.</p> <p>When clean wash all SP-10 Tank Kleen residue away with fresh water</p>
Cleaning	Brushes and equipment used can be washed clean in fresh water.
Safety	Wear suitable protective clothing, gloves and eye protection

Do not use SP10 on car paint work, caustic staining may occur.

Do not allow SP10 to dry on aluminium as the caustic may turn the aluminium white.
